

Our mission: "To champion through GPs and their practices, investment and delivery of healthcare services at scale for patients across East Leicestershire and Rutland"

**ELR GP
Federation**

Aim One – Providing More Care Locally and making care accessible for more of our patients

Aim Two – Improving

Current Services focusing on supporting core services, providing solutions which may include redesigning care and influencing the expansion of enhanced non-core services

Aim Three – Influencing Health Outcomes

working with commissioners to influence better health outcomes.

Aim Four – Supporting Sustainability in Primary Care

through achieving greater efficiencies in primary care and linked to redesigning care.

Our Business Priorities

Enable locally delivered **high quality care** through supporting core primary care services and expanding non-core primary care services

Work towards the **integration of care pathways**

across health and social care boundaries

As one voice, lobby ELR CCG to **enhance access** to primary and community based services through commissioning for health outcomes and stronger accountability

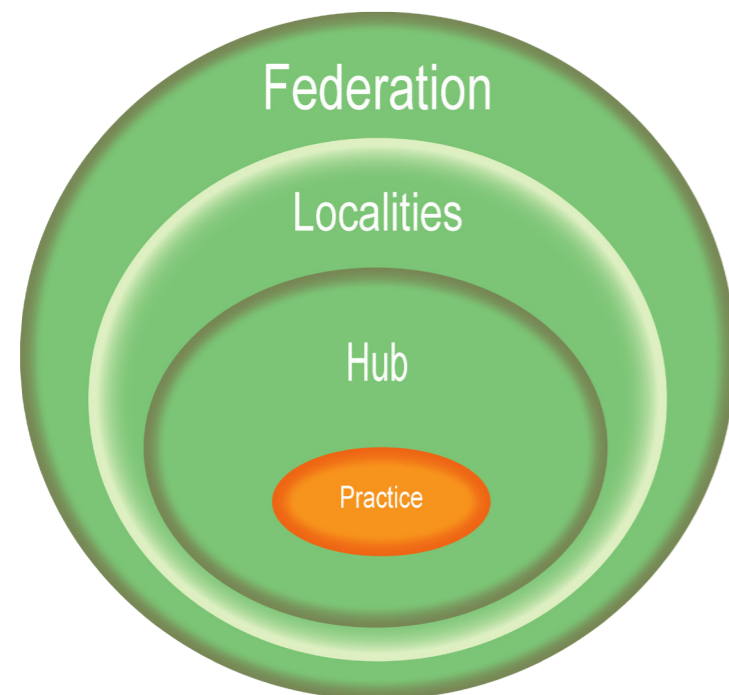

Drive forward efficiencies in primary care and within budget seek opportunities to **transform the delivery** of effective and focused healthcare

Collaborate with other providers, key health and social care partners and commissioners to deliver **more planned care locally** at scale

Drive forward **quality in primary care** through rigorous and effective governance

Work collaboratively with Commissioners to **influence health outcomes**.
