

We're looking for your ELR Shining Stars!

There are hundreds of people who work in and with our practices and, every day, they spend their time caring for patients and supporting their carers and family members.

Often, they go beyond the call of duty. Or they come up with a brilliant new way to improve care, save money, support their colleagues or make our patients' lives better.

All too often, their efforts can go unnoticed or unappreciated. We want to change that.

So we are offering the opportunity for anyone across East Leicestershire and Rutland to tell us about their own Shining Star.

It could be a local GP or Community Nurse or other health professional. It could be someone who works on reception or providing advice and support. It could be a volunteer or patient representative.

Whoever it is, or whatever they do, we want to give you the opportunity to tell us about your ELR Shining Star. .

We will highlight the best examples we receive and let every Shining Star know that someone appreciates them and what they do.

If you want to nominate a Shining Star, ask at reception for a nomination form or go online to <http://www.elrgpfed.com/elr-shining-stars>
